

Sprint 4 Plan, YardSale, November 19th.

Goal: Have full search functionality and widget

Task Listing:

User Story 1: As a user, I want to be able to view my own posts

Task 1: Read/Write from database

Task 2: Have a variable layout that displays information

User Story 2: As a user, I want to be able to see local posts

Task 1: Display titles of search results on browsing page

User Story 3: As a user, I want to be able to show interest in a listing

Task 1: Create a variable layout that displays post information

Task 2: Create a button to show interest

Task 3: Create functionality to send email to seller when interest is shown

User Story 4: As a user, I want a widget to navigate between searching posting and account details

Task 1: Create a navigation widget

Task 2: Link different activities to widget

User Story 5: As a user, I want to be able to see my account details

Task 1: Create an account settings activity

Task 2: List email and hidden password on the activity
