

-- SPRINT 1 PLAN --

Product Name: YardSale

Team Name: <insert later>

Sprint Completion Date: Wednesday, October 21st

Revision Number: 1

HIGH LEVEL GOALS:

The high level goal for this sprint is to learn how to build the frameworks necessary for each of the primary app functions.

USER STORIES:

Sprint 1:

- As a user, I want to be able to access the product from my android device via a download. (1)
- As a user, I want a basic data structure on the server that will be able to hold user data, even though I won't be able to necessarily access it directly. (13)
- As a user, I want to be able create an account that is SIM-specific/password/fingerprint protected. (8)
- As a user, I want to see a search tool for me to enter keywords on the "Browsing" page. (5)
- As a user, I want to see a form where I can fill in a descriptive title and details -- including location -- to create my post. (5)
- As a user, I want to be able to attach pictures to my post. (5)
- As a user, I want to go to the create-a-post form when I select a button on the "My Posts" page. (5)

TEAM ROLES:

Kevin Wang (Project Owner)

Sean Bell (Sprint 1 SCRUM Master)

Nadene Abuamara

Yinan Mao

Dylan Guyenne

INITIAL TASK ASSIGNMENT:

KW - As a user, I want to be able to access the product from my android device via a download. (1)

- As a user, I want to go to the create-a-post form when I select a button on the "My Posts" page. (5)

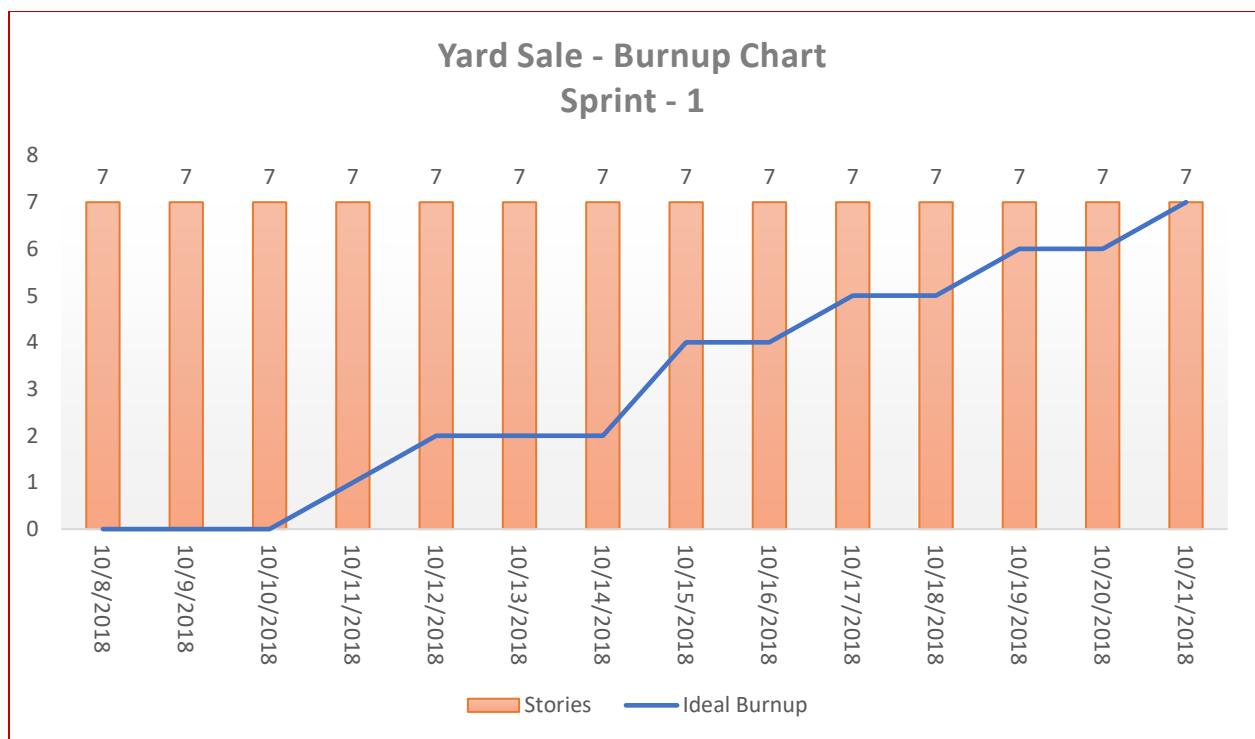

SB - As a user, I want a basic data structure on the server that will be able to hold user data, even though I won't be able to necessarily access it directly. (13)

NA - As a user, I want to see a search tool for me to enter keywords on the "Browsing" page. (5)

YM - As a user, I want to be able create an account that is SIM-specific/password/fingerprint protected. (8)

DG - As a user, I want to see a form where I can fill in a descriptive title and details -- including location -- to create my post. (5)
